Red Trim Plates for 1, 2, 3, 4 or 5 Gang Sizes

4-GANG PLATE ASSEMBLY

SPECIFICATIONS:

Input Voltage.....18-32 VDC, nominal 24 VDC

LED Current10 mA at 24 VDC, per LED

Tone-Alert Current30 mA at 24 VDC

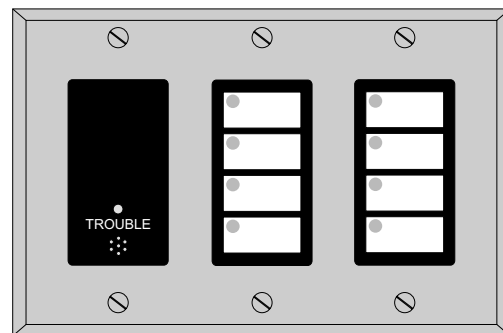

Mounting PlatesRed Plastic

Electrical BoxStandard Multi-Gang Switch Boxes, 1 1/2" (38 mm) Deep

Wiring Terminations.....Terminal Blocks, #22 to #16 AWG

Operating Temperature Range32°F to 120°F (0° to 49°C)

Operating Humidity Rangeup to 95% RH, non-condensing @ 95°F (35°C)

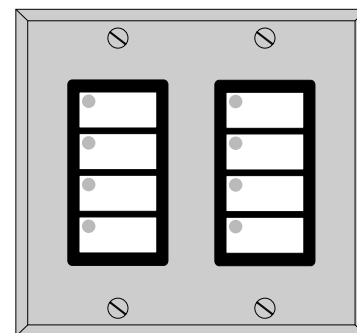

3-GANG PLATE ASSEMBLY

DESCRIPTION:

When used with the Simplex 4004 Fire Alarm Control panel, these annunciators provide a remote LED status display of Alarm, Supervisory, and Trouble conditions with local tone-alert operation. The four LED alarm annunciator module is compatible with the 4004 as well as most LED drive circuits that share a common +24 VDC.

Modules mount into standard 1 1/2" deep gangable switch boxes with plates available for 1, 2, 3, 4, and 5 gang applications. Refer to selection chart on page 2.

2-GANG PLATE ASSEMBLY

TYPICAL 4601 SERIES ANNUNCIATOR CONFIGURATIONS

4601 SERIES ANNUNCIATOR PRODUCT INFORMATION

SELECTION CHART

MODEL	DESCRIPTION	COMPATIBILITY
4601-9104C	Single Gang, 4 LED Pluggable Annunciator Module with Labels for Local Zone Identification	Compatible with most LED drive circuits, 10 mA at 24 VDC, each LED
4601-9107C	System Trouble LED, and Tone-Alert. Requires 1-Gang Space	Compatible with most LED drive circuits, 10 mA at 24 VDC, each LED, 30mA at 24 VDC for audible tone-alert.
4601-9154C	1-Gang Cover Plate, Red	Select to match module choice
4601-9155C	2-Gang Cover Plate, Red	
4601-9156C	3-Gang Cover Plate, Red	
4601-9157C	4-Gang Cover Plate, Red	
4601-9158C	5-Gang Cover Plate, Red	
4601-9150	1-Gang Blank Filler Module
